QUALIFICATIONS

I have fifteen plus year's experience in various aspects of television production from camera, to directing, and engineering. I have worked hard to develop my skills to be as well rounded as possible. I have owned professional Jibs with eight plus years experience in operating, repair, and upkeep of various jib platforms.

I spent seven years working in a shop as the Lead Fabricator where I was in charge of building props furniture and anything else the client could come up with I also had the responsibility of maintaining the facility. I'm skilled in carpentry and metal fabrication I enjoy working with my hands and creating something new. I take pride in my work and want to give the best possible product. I have designed an fabricated props, furniture, as well as operated cameras on broadcast events featuring such talent as Phil Robertson, Skillet, Needtobreathe, Lacrae and many more. My work has been used on television programs and award winning films viewed nationwide.
